

JUSTIN THOMAS

React JS Developer

SUMMARY

Experienced React JS Developer with a solid understanding of the MERN stack's components and over 4.2+ years of specializing in developing and optimizing user-centric web applications. Proficient in React JS, JavaScript, HTML5, CSS3, and TypeScript.

WORK EXPERIENCE

REACT DEVELOPER

01/2022 -
03/2024

Kenverse | Ken42 EdTech | Bangalore, Karnataka

- Led front-end development for the academic management module, facilitating term planning and faculty onboarding.
- Developed robust APIs with Express.JS and integrated SOQL queries, enhancing data retrieval efficiency.
- Trained and onboarded new front-end developers, improving team productivity.
- Created the beta and initial release of the fee management module, increasing transaction reliability.
- Enhanced Lighthouse performance score from 40 to 85+ by optimizing code and API calls and reducing load time.

REACT DEVELOPER

06/2020 -
12/2021

Gigaflow Technologies LLP | Bangalore, Karnataka

- Developed a comprehensive Dashboard module, enhancing platform-wide data visualization.
- Implemented fee and payroll solutions for two major clients, improving operational efficiency.
- Integrated Razorpay and PayU, streamlining payment processes for users.
- Developed an Excel-based migration module, accelerating user data transfer by 60%.

REACT DEVELOPER

10/2019 -
05/2020

Web Design Magics (Consultancy) | Bangalore, Karnataka

- Contributed to the profit and loss statement module for Gigaflow Technologies LLP, improving financial reporting accuracy.
- Designed an Excel-based migration module, streamlining data transfer.

Training and Internship

- Completed a comprehensive training program at Web Design Magics covering core concepts of React.JS, including JSX, component lifecycle, hooks, and state management (10/2019 – 01/2020).
- Built multiple mini-projects to apply theoretical knowledge in practical scenarios during the training.

WEB DESIGNER

01/2019 -
09/2019

Adaan Digital Solutions | New Delhi

- Successfully migrated over 600 websites in 7 months, enhancing client satisfaction.
- Conducted Quality Assurance testing for 2 months, ensuring high standards for all websites.

EDUCATION
